Functional Problems

1)

Skull Mountain	0902	0938	1001	1038
Three Towers	0917	0953	1016	1053
Bright Moon	0927	1003	1026	1103
Castle Grayskull	0937	1013	1036	1113

Adam is travelling to Castle Grayskull from the Three towers.

It is a 25 minute walk to the train station.

Adam wants to arrive no later than 11am.

What is the latest Adam can set off?

Show all your working out.

2)

James has a box of donuts.

He gives a third of them to Jessie.

Jessie eats three of them and has two remaining.

How many donuts did James have at the start?
